Premium USB Cable 2.0 - Type C-B

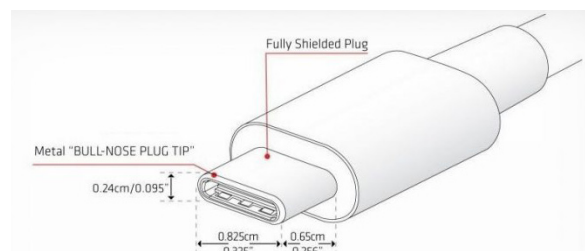

- USB 2.0 with data transfer speeds up to 480Mbps
- Precisely engineered 90 Ohm impedance for superior audio and video performance
- Designed for flawless 24-bit HD audio transmission
- Equipped with an E-Mark intelligent chip for enhanced functionality
- Built-in protection against over-current, overload, and temperature fluctuations
- Triple-shielded design ensures an ultra-stable, interference-free signal

This USB cable is meticulously optimized with a 90 Ohm characteristic impedance, ensuring minimal signal loss for crystal-clear audio and video quality. Its advanced USB-C chipset minimizes RFI pickup and inductance, keeping power signals stable for smooth, uninterrupted performance.

The high-grade connector with a metal casing, combined with triple shielding, provides exceptional protection against external noise and interference. A safety circuit board safeguards your devices from short circuits, overheating, and other potential power issues, ensuring long-term reliability and peace of mind.
